

# Text2Order Reorder Texts

We make ordering as **easy and convenient** as possible for patients.

Keep ordering on track with text prompts.

They simply reply **"YES"**.

## Patients always on-the-go? We'll text them.

### Order. Ship. Prompt. Repeat.

Stay connected to your patients that leave with less than an annual supply – **keep online profits in your practice.**

With Text2Order, we'll send your patients a text 15 days before they are due to run out of lenses, and they simply text back "YES" to confirm their order.

**YourStore™ has been upgraded!** Patients can enroll in Text2Order online at checkout, or you can enroll them yourself when they order at your practice! You are in complete control. We give you the keys!

**Now you can view and manage Eyesubscribe™ & Text2Order accounts for your patients** on a dedicated Enrollments page. View, pause, add, and even cancel patient enrollments.

### More Ordering. Less Hassle. It's Your Store.

YourStore™, EyeSubscribe™, and Text2Order are included with ALL WVA Accounts.

NEW!

## Text2Order

We'll deliver contacts right to their door, right on time.

*A complimentary service available to ALL WVA accounts!*
